SANTO

Santo

by Atelier Biagetti

Atelier Biagetti presents Santo, an alphabet where material, light, and shapes come together to create endlessly varied compositions—some precise and defined, others more sculptural and expressive. Light flows liquidly, moving from metal to blown glass, shifting in color and softening the boundaries between surfaces. Santo is also a playful system: by simply adding a component, the light can be directed as desired or left to drift freely through space.

Atelier Biagetti presenta Santo, un alfabeto in cui materia, luce e forma si combinano per creare composizioni sempre diverse: alcune precise e definite, altre più scultoree ed espressive. La luce scorre come un liquido, passando dal metallo al vetro soffiato, cambiando colore e ammorbidendo i confini tra le superfici. Santo è anche un sistema giocoso: basta aggiungere un componente per dirigere la luce a piacere o lasciarla fluire liberamente nello spazio.

Ph. credits Alex Majoli – Magnum Photos

The work of architect and designer Alberto Biagetti and artist Laura Baldassari challenges the boundaries between disciplines. Biagetti and Baldassari draw their inspiration from the world around them, from human behaviour and contemporary society's greatest obsessions. They dissect and deconstruct the functionality of objects to then reconfigure codes that previously seemed permanently sedimented in society. Their work aims to construct an immersive environment full of hints and clues in which the objects that inhabit the space become actors in a possible scene, questioning the space surrounding them and the habits related to it. Atelier Biagetti's include creations for Louis Vuitton, known for the Objets Nomades series, where art and functionality merge seamlessly to becoming pure experience; projects & experiences for Valextra, Adidas and MCM; and avant-garde designs with Gufram, Memphis Milano, and Venini. The studio's creations have been showcased in venues like the Triennale di Milano, Art Basel Design Miami, and galleries in global design capitals such as New York, Paris, Rome and Shanghai.

Santo

by Atelier Biagetti

The Santo collection includes pendant, floor and wall lamps and is characterised by the modularity of its elements. The diffuser is made of glass blown on a still mould. The LED source is available in a dimmable version for 24V or with 1..10V, DALI or PUSH dimming for the 230V version where the power supply is integrated. All versions are high efficiency and ripple free.

La collezione Santo è composta da lampade a sospensione, terra e parete ed è caratterizzata dalla modularità degli elementi che la compongono. Il diffusore è in vetro soffiato su stampo a fermo. La sorgente LED è disponibile in versione dimmerabile per 24V oppure con dimmerazione 1..10V, DALI o PUSH per la versione 230V dove l'alimentatore è integrato. Tutte le versioni sono ad alta efficienza e ripple free.
