30 YEARS OF LIGHT

Mars Floor by Yonoh Creative Studio

Founded in Milan in 1996, KDLN conceives light not as an accessory but as a structural and **expressive** element that shapes **space** and evokes **emotion**.

Through continuous stylistic and aesthetic **research**, light becomes **poetry**: a refined simplicity that enhances interiors, giving them identity, harmony, and warmth.

Collaborating with designers from around the world, KDLN balances tradition and modernity, transforming **intuitive** visions into projects with a universal, immediately recognisable **language**.
