PRODUCT GUIDE

# ABOUT PABLO DESIGNS

Pablo’s designs have been propelled to the forefront of American contemporary lighting by an uncompromising devotion to simplicity and utility. By fusing the highest technical sensibilities with the most appropriate material palette, Pablo is able to create unique, timeless designs with the power to transform any environment. Pablo was founded in San Francisco in 1993 by Venezuelan born industrial designer Pablo Pardo. Embracing a less-is-more ideology, Pablo frequently challenges traditional design metaphors, developing more practical solutions distilled down to their essence, form and light. A common thread links all of its creations, valuing permanence and sustainability, discarding the disposable mindset so prevalent today. Its mission is to create designs that deepen the relationship between objects, their users, and their environments.

## FOUNDER / CREATIVE DIRECTOR

### Pablo Pardo

With the creation of his first product in 1993, Pablo established a powerful and generative design philosophy. Since then, his core principles have informed the development of every light in the studio’s 30-year history. These products continue to move with culture while withstanding trends in design and each one carries the underlying uniqueness that is distinctly “Pablo.”

# DESIGN COLLABORATIONS

### Brad Ascalon

Brad Ascalon’s multidisciplinary Manhattan studio was founded in 2006. With a reductive approach to his craft, Ascalon believes in design that is uncomplicated, rational and manages to find the perfect balance of form, function and concept. Ascalon’s work has been exhibited around the world, and in 2013 he was singlehandedly invited to represent American design with an installation at Moscow Design Week. Ascalon earned a Masters’ degree for Industrial Design from New York’s Pratt Institute in 2005, and that same year was recognized by Wallpaper magazine as one of the “Ten Most Wanted” emerging designers in the world. He attributes his passion for design to the two generations before him who instilled the value of craftsmanship and rigor.

### Carmine Deganello

Based in Amsterdam and Milan, Deganello’s creative process begins with materiality and an empirical approach that is highly experimental. Research on materials and the ways in which they can unexpectedly drive the productive process is essential to his work. His lamp, Solis, is a product of Carmine’s shared sensibilities and long-term collaboration with Pablo. Deganello has worked extensively in Europe as well as the United States, his projects have been presented, among others, at the Triennale Design Museum as part of the New Italian Design collection. He is a graduate of Florence’s Instituto Superiore per la Industrie Artistiche.

### Fernando Pardo

Since lending his craftsmanship to companies such as Sony, Dell, Embraer, Compaq, Pablo, BMW, and others, Pardo has been internationally recognized as a leading design thinker. His “Gina” car for BMW won the “Concept Car of the Year” award in 2008, and, in addition to being showcased in the BMW Museum in Munich, continues to serve as the foundation for the company’s contemporary auto designs. Most recently Pardo received a 2012 Red Dot Award for his lamp, PIXO, which he created with his twin brother, Pablo founder Pablo Pardo. Fernando is a graduate of the design program at the University of Cincinnati.

### Peter Stathis

Fascinated by the social and cultural dimensions of objects, Stathis’ work seeks to foster meaningful relationships through today’s sophisticated, mass-produced environment. He executes this goal by working in both the high-minded and popular realms, having designed for brands ranging from the Museum of Modern Art to Lava Lite. Stathis’ original 2006 Tube Top lamp represents one of several contributions to Pablo.

### Pablo Studio

The Pablo Studio is a small group of makers and inventors with a diverse background in industrial design and craft, and a deep understanding of manufacturing, materials and technology. They aim to foster a sense of discovery and deeply personal utility in people’s interaction with objects. In beginning a new project, the team isolates a concept, meticulously refines it, and then reduces it to its central principle. The studio requires each design element to contribute to the essence of an object, following the Pablo philosophy of “less is more.” Pablo Studio works together to develop products that offer people unique experiences and broaden the field of lighting design.

# BEL OCCHIO

"Bel Occhio is a study in weightlessness and transparency," notes designer Pablo Pardo on his inspiration for this luminaire. "It evokes nature's transformative light." His piece manifests the celestial through a hybrid design: its suspended, inner column creates focused illumination while its surrounding shell produces a transformative ambient glow. These symbiotic elements enable Bel Occhio to act as a multi-position spotlight and a source of atmospheric tenor. They also serve dynamic purposes: Bel Occhio is built as an infinitely adjustable table lamp and a suspended pendant model. Both elements serve to illuminate with comfort and fascinate the imagination.

# BELMONT

The Belmont Collection was a collaborative creation with designer Brad Ascalon. Re-envisioning the traditional fabric shade lamp, but with the warmth and preciousness of hand crafted furniture. Belmont's iconic, yet reductive form creates a natural canvas for displaying an exquisite array of textiles from premium wool to colorful woven fabrics that can be paired with a solid crafted oak wood armature. Belmont Pendant can be hung individually or in stunning groupings to provide warm and comfortable illumination to complement any residential, contract, or hospitality setting. Belmont is also available in stunning table and floor standing models to bring warmth and beauty to any environment.

# BOLA DISC

Bola Disc is a uniquely expressive LED Lighting system featuring a distinctive range of chromated disc reflectors that give the illusion of weightlessness by mirroring its surroundings. Bola Disc pairs an elegant globe diffuser made of opaline glass with exquisitely polished stainless steel or aluminum discs in chrome, brass, rose gold, gunmetal, matte white, and matte black to appease the most discerning tastes. Dependent on size, Bola provides up to 1625 lumens of warm ambient light and is fully dimmable, providing unparalleled illumination. Bola can be suspended individually, in series, or as striking chandelier groupings for residential, contract, and hospitality settings alike.

# BOLA DISC MULTI-LIGHT

## DESCRIPTION

Bola's elegant reflective disc and globe design can be suspended in a variety of custom arrangements in both round and linear configurations. With Bola Disc Multi-Light, up to 11 lamps can be grouped together in a variety of mixed disc sizes to form stunning luminaire displays. Both size and shape of the grouping is controlled by lamp quantity and positioning relative to the Multi-Light canopy. Swag mounts are provided to extend the lights out into space along with an ample cord length of 8.9' (2.7m) to offer a wide array of unique solutions.

# BOLA DISC FLUSH

## DESCRIPTION

A study in refined simplicity, Bola Flush offers a magical combination of mirror and globe refined down to its bare essentials. The objective with the Bola Flush is to provide both direct and reflected light from either ceiling or wall mounted vantage points. Bola Flush brings elegance and refinement with four sizes and five finishes in chrome, brass, rose gold, gunmetal, white, and matte black. An ideal fixture for adding diffused and reflected light in hallway corridors, nooks, dining settings, bedrooms, or living areas. Stunning groupings can also be created by mixing different sizes together to form unique custom light displays.

# BOLA FELT

Bola Felt's charmingly expressive felted shade hat features a soft and pliable conical structure with 2 colored layers of undulating wool inside and out. It is available in 4 distinct sizes: 24" (61 cm), 32" (81 cm), 42" (107cm), and 52" (132cm). Its shade rests elegantly over its opaline glass globe diffuser allowing the user to tilt the shade to multiple angles to focus light while taking on various relaxed personalities in the process. Bola Felt casts unparalleled illumination boasting up to 1625 lumens of warm and dimmable LED light that runs cool to the touch. Bola can be suspended individually, or in spectacular groupings to become the centerpieces of any space. Bola's thick felt shade also offers excellent acoustic dampening benefits making them perfectly suited for use over dining applications as well as social gathering areas where sound control is beneficial. Ideal for residential, lounge and hospitality spaces alike.

Designer:  
Pablo Pardo + Pablo Studio 2018

# BOLA FELT

## DESCRIPTION

Bola Felt is a uniquely expressive pendant light that features an undulating 100% wool felt shade that's adjustable to focus light to any desired direction. Bola Felt's acoustic properties provide excellent noise dampening characteristics that are perfectly suited for dining areas or quiet zones in the workplace. The shade is available in 4 distinct sizes: 24" (61cm), 32" (81cm), 42" (106cm), and 52" (132cm) with mating opaline globe diffuser sizes: 6" (15cm), 8" (20cm), 10" (25cm), and 12" (30cm) diameters. Bola Felt casts up to 1625 lumens of warm ambient light and is fully dimmable to set the ambiance.

# BOLA HALO MULTI-LIGHT

**DESCRIPTION**  
Bola Halo's elegant ring and globe design can be suspended in a variety of custom arrangements in both round and linear configurations. With Bola Disc Multi-Light, up to 11 lamps can be grouped together in a variety of mixed disc sizes to form stunning luminaire displays. Both size and shape of the grouping is controlled by lamp quantity and positioning relative to the Multi-Light canopy. Swag mounts are provided to extend the lights out into space along with an ample cord length of 8.9' (2.7m) to offer a wide array of unique solutions.

# BOLA SPHERE TABLE

## DESCRIPTION

The Bola Sphere Table series fuses an elegant blown opal glass sphere with a mirrored disc base in polished stainless steel to give the illusion of a floating orb in space. Taking its cues from the Bola Family Collection, the new table version brings this magical combination to a table surface, allowing for full range dimming and is available in 4 distinct globe sizes: 8” (20cm), 10” (25.5cm), 12” (30.5cm), and 16”(40cm). Its mating base is available in 3 corresponding diameters : 9.5” (24cm), 12” (30.5cm), and 14” (36cm) in 5 exquisite finishes: chrome, brass, rose gold, gunmetal, and matte black. Each finish provides a distinct personality for any residential, contract, or hospitality environment. The Bola Sphere Table is now available with a larger 16” (40cm) globe!

# BOLA LANTERN

Based on the Bola Sphere Table 8, the Bola Lantern adds a premium leather handle and a rechargeable battery that enables a level of portability new to the Bola Family. Bola Lantern's size and stature give a sense of presence that is unfound with portables, while maintaining the lightness associated with the floating orbs that are Bola. Discs are available in chrome, brass, gunmetal, and matte black. The leather handles are available in a natural vegetable tanned leather and black. Battery life ranges from 10 - 400 hours depending on light intensity. Bola Lantern produces 280 lumens of warm ambient light.

# BRAZO

Fusing breakthrough LED technology with a uniquely tactile and calibrated light control experience, Brazo is an intelligent, precise and effortlessly adjustable task lamp. A user can tune it to any beam spread, brightness and direction, controlling the volume and focus of light. The aluminum shade on the lamp's arm enables much of this adjustability, enabling the user to fluidly dial it around the light source to guide the beam in any direction. Although suitable for any environment, the versatility and 360° adjustability offered in its minimal frame makes Brazo ideal for use in work environments. Brazo transforms from table to floor model with a simple extension post and ships flat-packed for easy transport.

Designer:  
Pablo Pardo 2007/2008

Awards:  
2008 IDEA Gold Award  
2007 Best of Neocon Gold

**DESCRIPTION**  
Carousel blurs the line between ambiance and utility combining a low setting wireless charging tray surface for your mobile devices with warm, glare-free illumination. It's low profile LED light module is discreetly concealed below its mating tray and suspended atop a transparent fluted acrylic cylinder diffuser that radiates mesmerizing light patterns onto the table surface below. Perfectly suited for desktop or bedside use, Carousel embodies a uniquely hybrid perspective on what a personal light can be. The base diffuser is offered in both clear and bronze tint and can be paired with a spun steel tray in White, Terracotta, and Black.

CAROUSEL FLOOR

# CIELO PLUS

Through its minimal form and glare-free, flat panel LED technology, Cielo enables light to act as its expressive element and defining feature. Its finish palate also works to this end, underscoring the lamp's simple structure and exalting its light. Cielo's classic shape integrates into any environment, regardless of style, and it can be suspended individually, in a series or as a chandelier to provide warm and balanced illumination. The larger the grouping, the bolder the display. Cielo offers a full dimming range and is composed of energy efficient LEDs rated for up to 50K hours. Now available in brand new Hi-Bright model boasting 930 lumens of glare free illumination.

Pablo Studio 2012

# CIELO PLUS PENDANT

## DESCRIPTION

Through its minimal form and glare-free, flat panel LED technology, Cielo enables light to act as its expressive element and defining feature. Boasting a robust 930 lumens of warm dimmable light, Cielo Plus maintains a compact and classic shape that integrates into any environment, regardless of style. Cielo Plus is offered in two refined machine-trace finishes in silver and brass as well as two textured painted finishes in white and black. Cielo can be suspended individually, in a series, or in chandelier groupings to provide warm and balanced illumination. The larger the grouping, the bolder the display. Cielo offers full range dimming and is composed of energy efficient LEDs rated for up to 50K hours.

# CIELO XL MULTI-LIGHT

## DESCRIPTION

Cielo XL's stunning machined aluminum design can be suspended in a variety of unique custom arrangements with both round and linear canopy solutions. With Cielo XL Multi-Light, up to 9 lamps can be grouped together in a variety mixed sizes to form impressive luminaire displays. Both size and shape of the grouping is controlled by lamp quantity and positioning relative to the Multi-Light canopy. Swag mounts are provided to extend the lights out into space along with an ample height adjustable cord length of 10' (304cm) to offer a wide range of unique custom configurations.

# CIRCA

In designing Circa, the Pablo Studio designers wanted to create a product that was revolutionary yet familiar. They not only created a new lamp, but also a new archetype for indoor lighting – one that blurs the boundary between the utilitarian work lamp and traditional shaded lamp. Circa's defining feature is a flat-panel LED disc that moves fluidly above its axis point. This mobility allows the lamp to assume an infinite number of positions while functioning as a task lamp that provides balanced, ambient light. Circa also supports a user's mobile devices by integrating a USB charging port on the table, grommet, and floor models.

# CORTINA

In conceiving of Cortina, designer Pablo Pardo sought to create a light that would assert its presence but seamlessly complement a variety of surroundings. What he built is a stoic, sculptural luminaire that emits a seductive light through its transparent and diffused surfaces. Cortina's monolithic form factor creates a noble light that mimics its architectural surroundings. Fluidly dimmable, the piece is comprised of a clear acrylic shade and a translucent fabric diffuser to shield the upward-facing light source. Cortina is available in heights ranging from 24" to 72".

Designer:  
Pablo Pardo 2000-2004

# CORTINA TABLE

### DESCRIPTION

The timeless Cortina lamp is architectural simplicity. Its stoic clear acrylic shade features a sensual translucent mesh fabric diffuser to shield the lamp's dimmable light source. Cortina allows you to set any mood depending on the moment.

# ELISE

Elise is a conceptual tribute to the machine age: streamlined, understated, and honest in its function as a light source. Celebrating the most classic of industrial forms, the cylinder, two elements compose the lamp: a refined aluminum or marble base conceals the light source, providing ample ballast, while its towering frosted acrylic diffuser becomes a beacon of light. Its confident, geometric simplicity enables it to comfortably inhabit a diversity of spaces. Elise offers a full dimming range and is available in heights ranging from 12" to 80".

Designer:  
Pablo Pardo 1998/2019

# ELISE TABLE

## DESCRIPTION

The timeless Elise lamp pays tribute to the advent of the machine age. Its refined machined aluminum base combined with its towering frosted acrylic diffuser serves as the perfect combination for elegant lighting. Elise features full-range dimming capability to set the mood in any setting.

# LIM360 | LIM

A study in reductionism, LIM is not so much a lamp as it is a conduit of light. Its minimalist form shapes a plane of illumination powered by an equally minimalist light source — a continuous array of high-output, energy-efficient LEDs discreetly concealed in its armature. Along with a slim, rotatable arm that enables the user to redirect the light, LIM employs a magnetic attachment system that makes it effortlessly portable and adjustable. LIM is available in up to five different form factors enabling tabletop, floor, and undersurface mount applications.

# NIVÉL

At the intersection of truly functional lighting and furniture, Nivel brings warm and dynamic illumination to any residential, hospitality or work space. The Nivel portable collection consists of rechargeable, battery powered table and floorstanding lights that allow for freedom of movement to bring light to areas not serviced by power outlets. Perfect for indoor and outdoor entertaining, Nivel instantly becomes the focal point of any social gathering and can be easily toted by its solid wood post handle. Its cleverly designed shade/light engine assembly can be easily raised and lowered to any desired height around its crafted wooden post to provide maximum light control depending on user preference. Nivel portables are available in both pedestal floor and shaded table and floor models with 6 painted colorways in matted white, Terracotta, Forest Green, Slate Blue, Espresso and textured black and can be paired with either a white oak or walnut post. LED light engine features glare free flat panel light technology with best in class battery life of between 8-160 hours depending on light level.

Designer:  
Pablo Pardo + Pablo Studio 2021

# NIVÉL PEDESTAL

## DESCRIPTION

At the intersection of functional lighting and furniture, you find Nível. As an adjustable height side table, Nível provides a totem to gather around. Portable and rechargeable, Nível enables users to bring light to areas not serviced by power outlets. Sturdy enough to rest a few beverages atop while nimble enough to be raised or lowered at a moment's notice. Its cleverly designed light module rests securely fastened around a solid wood post fastened to a powder-coated steel base for added footing. A soft ambient downward facing light panel completes the package, bringing an unobtrusive light source to your home or office space. The post is offered in both solid oak and walnut and can be paired with a powder-coated tray in White, Terracotta, and Black.

# NIVÉL FLOOR + PEDESTAL

## DESCRIPTION

At the intersection of functional lighting and furniture, you find Nivel. Nivel Floor is an adjustable height portable floor lamp. Perfect for indoor or outdoor use, Nivel provides a totem to gather around. Portable and rechargeable, Nivel enables users to bring light to areas not serviced by power outlets. Its cleverly designed light module rests securely fastened around a solid wood post fastened to a powdercoated steel base for added footing. A soft ambient downward facing light panel completes the package, bringing an unobtrusive light source to your home or office space. The post is offered in both solid oak and walnut and can be paired with a powder-coated shade in white, terracotta, forrest green, slate blue, espresso and textured black.

## FIXTURE TYPE

Portable and rechargeable

## LIGHT SOURCE

Flat Panel LED

## LIGHT CONTROL

Capacitive touch switch (3-stage dimming: 100/40/10%)

## FEATURES

- Adjustable height tray surface
- USB-C charging port
- 8-160 hr Battery life

## SPECIFICATIONS

- Voltage: 120-240V 50/60Hz
- Power Consumption: 6W
- Color Temperature: 2700-2200K (warm dim)
- Luminosity: 350Lumens
- Luminaire Efficacy: 58 Lumens/Watt
- Color Rendition Index: 95 CRI
- Cord length 9' (2.7m)
- 8 hr charge time (using included 10W power plug)
- IP54 damp rated

# NIVÉL PENDANT

Redefining the future in pendant illumination, Nivél's pure and elegant silhouette features a colorful pallet of spun shade forms combined with an articulating flat panel LED light engine that pivots gracefully on axis to focus light downward or as a wall wash to provide seamless light control for any space. Nivél pendant can be suspended individually or in large multi-light clusters powered by a single hardwired canopy allowing the user to reposition the lights to any desired height, span and directionality. Available in 2 sizes: 15" (38cm) and 22" (56cm) and 6 powder coated finishes in matte white, Terracotta, Forest Green, Slate Blue, Espresso and textured black with choice of black or white fabric cord and ceiling canopy. Nivél is also available in flush-mount variations for both sizes.

# PICCOLA

As his very first product, Piccola is the original embodiment of Pablo Pardo's "less is more" design philosophy. Created as a personal utility lamp, Piccola's form is minimal, but also tactile, playful, and inviting of interaction. Supple Italian glove leather covers its soft, pliable base, which a user can tilt to any angle while its aluminum shade floats to remain level. It is this malleable base that maintains Piccola's sensitivity to any position - sensitivity intended to make every articulation organic and personal. Piccola is part of the San Francisco Museum of Modern Art's permanent collection.

Designer:  
Pablo Pardo 1993

Awards:  
1993 ID Magazine Gold Award  
SF MOMA permanent collection

# PICCOLA

**DESCRIPTION**  
Piccola is limited only by your imagination. Its soft pliable base is covered in supple Italian glove leather and can be tilted to any angle while its hand-spun aluminum shade floats freely to remain level in all positions. It is as playful as it is intelligent. Piccola is part of the SFMOMA permanent collection.

# PIXO

Although it embodies an emotive, humanistic form, Pixo, at its conceptual core, is an ultra-efficient task light. Functionality and necessity drive its design. It makes the most of its frame and its space through every feature: Pixo's swiveling light shade and highly maneuverable arm lend it maximum utility within a minimal footprint. Its compact, energy-saving LED light is infinitely adjustable, allowing the user to focus warm, glare-free light wherever needed. For added convenience, the elegant form factor features full-range dimming via its intuitive optical switch. Pixo's newly upgraded wireless charging base with USB-C port now provides up to 15 watts of power for high-speed charging. Even more, the upper and lower pieces ship detached from one another to reduce packing materials and shipping costs. Pixo Plus is 97% recyclable. Pixo is also available for wall mount application and features only a USB-A charging port.

# SOLIS

In creating Solis, designer Carmine Deganello set out to engage with light in its archetypal form: the sun's rays. The resulting piece is an engaging blend of light and shadows, casting shimmering rays and radiating patterns onto a space. The effect is a sense of weightlessness — and a redefined environment that invites a new kind of relationship with the light source. A suspension lamp made of lightweight polyester fabric and stainless steel, Solis can be used as a pendant or hung from a wall.

Designer:  
Carmine Deganello 2009/2010

# SOLIS PENDANT

# SOLIS DRUM

The new Solis Drum Pendant is the latest addition to the elegant Solis suspension family. Featuring a uniquely engaging blend of light and shadow, Solis Drum is made of laser cut polyester fabric combined with an aluminum top and bottom ring construction that allows the shade to hang under tension. Solis Drum also employs a stunning LED dome diffuser that spans the diameter of the top ring, radiating light down and sideways to cast shimmering warm patterns onto the space that surrounds it. The effect is a sense of weightlessness that invites a new kind of relationship with the light source. Perfect over a dining table, an entryway or in large groupings.

# STELLA

Stella is a dynamic pendant light that can be effortlessly expanded to a wide range of sizes from 10" (25.4 cm) to 55" (140cm) in diameter depending on user needs. Made up of multiple interwoven aluminum arm segments with strategically placed pivot joints, this dynamic fixture transforms from inward facing illumination to downward facing direct lighting when expanded outward. Stella's highly versatile suspension system also allows for inverting the fixture to provide upward facing direct lighting, all in a single fixture. Stella is offered in matte black and matte ivory white painted finishes. Its playful and highly interactive design invites a new kind of relationship with the light source. Ideally suited over table surfaces, entryway foyers, or in expansive chandelier groupings.

Designer:  
Pablo Pardo + Fernando Pardo + Pablo Studio 2024

STELLA IS INFINITELY ADJUSTABLE AND CAN EXPAND FROM 10" (25cm)  
TO 55" (140CM) IN DIAMETER.

# T.O

T.O celebrates and reinforces the importance of light as a pillar of our daily life. A monolithic column stands to support a horizontal and vertical line of light to provide precise light control in all directions. T.O embodies a harmonious dialogue between solidity and lightness offering unlimited contexts for use in residential and workplace environments, all within a minimal footprint. T.O features a fully dimmable LED light source with tactile push switch appropriately positioned at the end of arm. Both table and floor versions feature a magnetically attached light arm over a marble cylinder base while the light wand can be rotated up to 360 degrees to provide both direct and indirect light for task and ambient lighting needs alike. T.O is offered in 2 marble base finishes in Marquina black and Carrara white while the light arm is elegantly contrasted in polished surfaces in brass and chrome. T.O is a seamless integration of functional lighting and sculpture.

# TOTEM

Totem is a versatile pendant lighting collection comprised of exquisitely blown opal glass shades designed around a modular platform. Totem's soft, pure white geometric forms provide a charming interplay of unique combinations to provide warmth and elegance to any space. Users can select from 4 shade styles (A,B,C,D) to mix and match to create an ensemble of 20 unique pendant combinations. Totem provides both direct and indirect illumination by employing a two-part LED light engine that provides both uplight and downlight resulting in a warm and dimmable ambient glow projecting through its softly diffused glass structure. Totem singles can be used in flush mount down-light only scenarios as well.

# TOTEM WALL

Totem Wall takes its elegant form and materials from the pendant and table models and cleanly ushers a captivating light unto any wall and ceiling. The compact and versatile Totem Puck features glare free illumination with field selectable LED CCT (2700K / 3000K / 3500K) and is available in warm white, dove gray, black, walnut, and brass finishes. Totem Sconce adds a crafted mouth blown glass shade in opal white, clear, smoke and amber finishes to accentuate the light effect as it filters through the glass. Ideal for lining multiples in hallway corridors or providing soft indirect illumination for modern living areas, bathrooms and bedroom applications.

# TUBE TOP

Tube Top comfortably abstracts the classic, domestic lamp silhouette to suit any style of interior. As designer Peter Stathis remarks, "Pablo is well known for their rigorously minimal products, and my goal was to augment that range by introducing a new light that applies a modern sensibility to a traditional lamp type." Playing with that traditional form, Tube Top combines a transparent, sculpted acrylic base to support its lightweight mesh shade in tension, allowing the shade to appear to float freely. Tube Top is available in multiple table and floor models.

Designer:  
Peter Stathis 2006

# TUBE TOP TABLE

## DESCRIPTION

A minimalist statement in form and proportion, Tube Top combines a transparent formed acrylic base to support its elegant mesh fabric shade in tension, steering away from conventional modes of construction. Its lightweight shade appears to float freely, gently tethered by its fabric cable. Tube Top is available in multiple table, floor and pendant models.
